

SELF TRUST

The Romanian Conveyor Factory

**Manufacturer of
Intralogistics Transport Systems**

**Consulting, solution design, equipment production,
automation, maintenance.**

AREA OF EXPERTISE

Parcel & Postal

In over 20 years of activity, we have managed to become an integral part of the development of our clients' projects, among which we list:

DHL, FIEGE, CARGUS, FAN COURIER, GLS, DPD and many more. The key factor in the success they have experienced in understanding the challenges they meet.

eCommerce

With extensive experience in the field and numerous completed projects, the intralogistics solutions we provide are tailored to the needs and the particularities of each project in E-Commerce.

SELF TRUST is the sustainable choice for automating your project in an ever-changing environment!

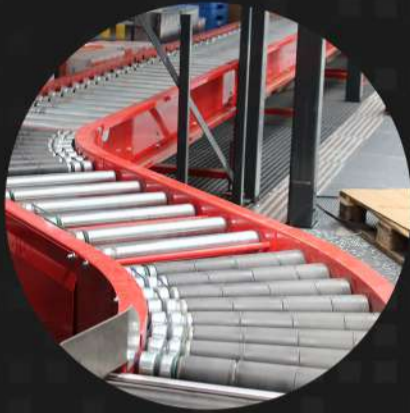

[WAREHOUSE]

From pharmaceutical warehouses to spare parts distributors or even furniture warehouses, we can help you implement complete intralogistics systems for your warehouse business.

Among the clients we collaborate with are: Leoni, Aramis, Augsburg, Autonet, Conex, Farmexpert, Agrana and many others.

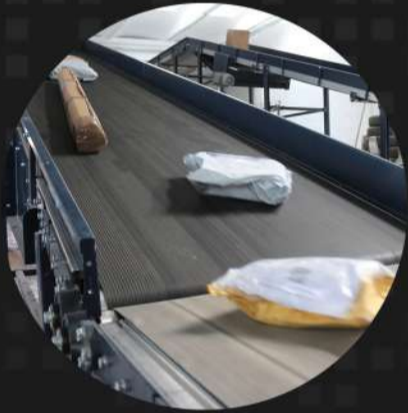

SELF TRUST provides the best-customized solutions for each project: from intralogistics solutions to the production of conveyors, design and implementation of conveyor systems, turnkey solutions, integration solutions and automation.

OUR PRODUCTS

Roller Conveyors

(driven or gravitational)

Belt Conveyors

(horizontal, inclined, concave, curved or spiral conveyors)

Transfer Systems

(Pop-up transfer systems on toothed belts or chains, fast diverter units - HPD)

Our company engineers can adapt any product in our range and can research and propose innovative solutions for your applications. We can simulate in detail all the components and analyze in detail each process of transport, transfer, offering a complete analysis for a conveyor or a complex system of conveyors.

For more types of conveyors please contact us or acces: www.intralogistics.ro

INTRALOGISTICS SOLUTIONS

Self Trust Romania can fully satisfy the requirements of any warehouse. Through an in-depth understanding of intralogistics storage and distribution processes, our company offers competitive solutions that help our customers improve their delivery performance and meet market demands. Our extensive portfolio of warehouses and distribution centers extends across the full range of processes and offers a wide range of benefits.

The integrated solutions and automated technologies we provide result in improved workflow, long-term reliability and significantly reduced delivery times.

KEY PRODUCT

Spiral Chutes

Spiral Chute Conveyors are the most economical, fast, safe, efficient and low maintenance way to safely convey items from one level down to another, at controlled and constant speeds, driven by gravity and using zero energy.

A wide range of options designed to integrate with any system, it can be configured to interface with any roller or belt conveyor system.

Safe and controlled downward movement

High level of customization

Durable construction

- Fast and simple installation;
- Built for a smooth and even flow;
- It can be customized to your application;
- Custom infeed and exit chutes;
- Low procurement costs and low maintenance cost/effort;
- No moving parts and no spare and wear parts;
- Durable construction with bolt-together assembly;
- Capable of handling different products at the same time.

AIRPORT CONVEYORS.EU
